

Please leave our state no call law in force I used to get 10 to 15 calls a night from telemarketers. If the Federal Law takes over I'm sure they will start to call again because it is much weaker then Wisconsin. I got so many calls before that I stopped answering my phone and screened my call with the answering machine. I shouldn't have to do that. I sometimes got calls after 10:00 PM and early morning too. Sincerely, Robert Johnson
